

STC Strategic Summer Planning Meeting July 28th, 2009

Discussion of the financial difficulties for the international STC: Alison had a great point: in this time of economic troubles, the last thing we should do is cut back on networking and training opportunities.

Our initiatives for this year are:

1. Communicate benefits of STC
2. Make connections from classroom to the professional world
3. Network
4. Increase newsletter submissions
5. Focus on training
